

Below is a **complete Figma Wireframe Specification** for the **AUREON9 Membership & Rewards Platform**, designed in a **Nextcloud-style UI system**, fully aligned with ODIEBOARD governance and ODIECLOUD^{2π} ecosystem integration.

This is structured so your **designers can build directly in Figma** and your **developers can translate into production (React / Next.js)** without ambiguity.

AUREON9 — FIGMA WIREFRAME SYSTEM (NEXTCLOUD-STYLE UI)

Powered By ODIEBOARD

1. DESIGN PRINCIPLES (NON-NEGOTIABLE)

UI Philosophy

- Clean, modular, enterprise SaaS interface
- Left-sidebar navigation (persistent)
- Top control bar (context + actions)
- Card-based content blocks
- Data-first layout (tables, metrics, dashboards)

Visual Style

- Minimalistic (Nextcloud-inspired)
- Soft shadows, rounded corners (12–16px radius)
- Grid system (12-column responsive)
- High contrast for readability

Color System (ODIEBOARD-aligned)

Element	Color
Primary	Deep Blue (#0A2540)
Secondary	Teal (#00A8A8)
Accent	Gold (#D4AF37)
Background	Light Gray (#F7F9FB)
Cards	White (#FFFFFF)
Alerts	Red / Green / Amber

2. FIGMA FILE STRUCTURE

Pages in Figma

1. **00 – Design System**
 2. **01 – Public Website**
 3. **02 – Authentication**
 4. **03 – Member Dashboard**
 5. **04 – AUREX Wallet**
 6. **05 – Marketplace (ODIEXA)**
 7. **06 – AAL Referral System**
 8. **07 – Verification Center**
 9. **08 – Admin / Governance Panel**
 10. **09 – Mobile Responsive**
-

3. DESIGN SYSTEM (PAGE 00)

Components to Create:

Typography

- Heading 1 (32px, bold)
- Heading 2 (24px)
- Heading 3 (18px)
- Body (14–16px)
- Caption (12px)

Buttons

- Primary (solid blue)
- Secondary (outline)
- Danger
- Success

Cards

- Standard card
- Metric card

- Profile card
- Notification card

Badges

- Tier badges (Gold, Executive, Founding, etc.)
- Verification badges
- Status badges (Active / Suspended)

Inputs

- Text input
 - Dropdown
 - File upload
 - Toggle switch
-

4. PUBLIC WEBSITE WIREFRAME (PAGE 01)

A. Homepage Layout

Section 1 — Hero

- **Headline:**
“AUREON9 — Membership, Identity & Rewards Infrastructure”
 - Subtext
 - **CTA Buttons:**
 - Request Access
 - Explore Membership
-

Section 2 — Membership Tiers

Grid of 6 cards:

- Entry
- Certified
- Executive
- Strategic

- Founding
- Sovereign

Each card:

- Benefits
 - Requirements
 - CTA: “Apply”
-

Section 3 — Ecosystem Integration

Icons + descriptions:

- ODIEBOARD (Governance)
 - AAL (Sales)
 - ODIEXA (Marketplace)
 - AUREX (Wallet)
 - Oπ (Technology)
-

Section 4 — Trust & Verification

- “Verified Participants Only”
 - Document validation explanation
-

Section 5 — CTA

- “Request Access to AUREON9”
-

5. AUTHENTICATION SCREENS (PAGE 02)

Screens:

- Login
- Register
- Forgot Password
- Verification Pending

Layout:

- Centered card

- Clean minimal UI
 - Logo top center
 - Form inputs stacked
-

6. MEMBER DASHBOARD (PAGE 03)

Main Layout (CRITICAL)

LEFT SIDEBAR (Persistent)

Menu:

- Dashboard
 - Profile
 - Verification
 - Membership Tier
 - Rewards (AUREX)
 - Earnings
 - Marketplace (ODIEXA)
 - Referrals (AAL)
 - Opportunities
 - Documents
 - Settings
-

TOP BAR

- Search
 - Notifications (bell icon)
 - Profile avatar
 - Tier badge
-

Dashboard Main Screen

Row 1 — Metrics

- Total Earnings

- AUREX Balance
 - Tier Level
 - Referral Count
-

Row 2 — Activity Cards

- Latest transactions
 - Notifications
 - Pending actions
-

Row 3 — Opportunities Feed

- Investment
 - Trade deals
 - Tours
-

7. PROFILE & IDENTITY (MODULE)

- Profile photo
 - Personal info
 - Business info
 - Linked accounts
-

8. VERIFICATION CENTER (PAGE 07)

Layout:

Left:

- Verification levels (progress bar)

Right:

- Upload documents:
 - ID
 - Business license
 - Financial docs

Status indicators:

- Pending
 - Approved
 - Rejected
-

9. MEMBERSHIP TIER SCREEN

- Current tier badge (large)
 - Progress bar to next tier
 - Requirements checklist
 - Upgrade CTA
-

10. AUREX WALLET (PAGE 04)

Sections:

- Wallet Balance
 - Transactions Table
 - Withdraw / Transfer buttons
 - Rewards breakdown
-

11. ODIEXA MARKETPLACE (PAGE 05)

Layout:

- Search bar
- Filters (Category, Country, Type)
- Product/service cards

Each card:

- Title
 - Price
 - Verified badge
 - CTA: Buy / Invest
-

12. AAL REFERRAL SYSTEM (PAGE 06)

Components:

- Unique referral link
 - Copy button
 - Referral stats:
 - Clicks
 - Conversions
 - Earnings
 - Team structure (multi-level)
-

13. OPPORTUNITIES MODULE

- Investment deals
- Trade deals
- Tours (FYT)

Each with:

- Summary
 - Risk level
 - Entry requirements
 - CTA
-

14. ADMIN / GOVERNANCE PANEL (PAGE 08)

Modules:

- Member Approval Queue
- Verification Control
- Risk Monitoring
- Reward Distribution Control
- Activity Logs
- Revenue Dashboard

15. MOBILE RESPONSIVE (PAGE 09)

Key Adjustments:

- Sidebar → collapsible menu
 - Cards stacked vertically
 - Simplified metrics
 - Touch-friendly buttons
-

16. INTERACTION DESIGN

Must include:

- Hover states
 - Loading states (skeleton loaders)
 - Success/error messages
 - Animated transitions (subtle)
-

17. FIGMA COMPONENT NAMING CONVENTION

Use structured naming:

- BTN/Primary
 - CARD/Metric
 - NAV/Sidebar
 - FORM/Input
 - BADGE/Tier
 - TABLE/Transactions
-

18. DEVELOPER HANDOFF REQUIREMENTS

Each frame must include:

- Spacing system (8px grid)
 - Font specs
 - Color tokens
 - Component states
 - Interaction notes
-

19. FINAL OUTPUT DELIVERABLE (FIGMA)

Your Figma file must contain:

- ✓ Complete Design System
 - ✓ Desktop wireframes
 - ✓ Mobile responsive layouts
 - ✓ Clickable prototype
 - ✓ Component library
 - ✓ Developer annotations
-

20. NEXT STEP (HIGHLY RECOMMENDED)

To move into execution immediately, I can generate:

1. **React (Next.js) Frontend Starter (Production Ready)**
 2. **Tailwind UI Component Kit (matching this design)**
 3. **Prisma Database Schema**
 4. **API Spec (OpenAPI + endpoints)**
 5. **Baserow Integration Schema**
-

If you want, I will now:

👉 Convert this into a **pixel-perfect Figma JSON spec OR React codebase starter** so your team can begin building immediately.
